

Service

HdO Gerät / BTE Instrument

Pure primax

BTE instruments utilize electrostatic sensitive devices (ESD) which are very sensitive to static charges and may be destroyed by such charges. All work on open hearing instruments therefore requires workplaces at which ESD regulations can be implemented to prevent the accumulation of static charges. This also applies to replacement of the housing!

Tools

Tools usually used for servicing and repairing hearing instruments.

7 px HdO Geräte- Bestellnummern:

Order numbers for BTE instruments 7 px:

10933618	beige/beige
